

## Job Opportunity for Electronics Technician

### The Company

Silvus is a fast-growing high-tech entrepreneurial company in the heart of West Los Angeles. The company delivers the most technologically advanced Mobile Ad-Hoc Networking (MANET) solution to multiple markets including: Commercial Broadcasting; Law Enforcement; Unmanned Systems; and Military, among others. Along with its successful MANET product line, the company also delivers on ground breaking research in wireless data communications.

### The Opportunity

Silvus is seeking an Electronics Technician to participate in production of Silvus's StreamCaster radios and engineering support. The selected individual will be part of a highly dynamic group that is at the forefront of delivering multi antenna based solution to both the military and the commercial sectors. He/She will work closely with the production manager and design engineers to ensure high quality and timely delivery as well as improving the product design. This opportunity is well suited for an entrepreneurial minded individual who is looking to take on greater and a diverse set of challenges associated with a highly dynamic startup and growth environment.
