

## Job Opportunity for Electronics Technician

### The Company

Silvus is a fast-growing high-tech entrepreneurial company in the heart of West Los Angeles. The company delivers the most technologically advanced Mobile Ad-Hoc Networking (MANET) solution to multiple markets including: Commercial Broadcasting; Law Enforcement; Unmanned Systems; and Military, among others. Along with its successful MANET product line, the company also delivers on ground breaking research in wireless data communications.

### The Opportunity

Silvus is seeking an Electronics Technician for the production team of Silvus's StreamCaster line of MIMO radios. The selected individual will be part of a highly dynamic group that is at the forefront of delivering multi- antenna solutions to both the military and the commercial sectors. This role will work closely with production management and engineering to ensure high quality and timely delivery as well as provide feedback for continuous improvement of the product.

### Technical Responsibilities

- Testing of sensitive electronics assemblies and printed circuit boards (PCBs)
- Final assembly and inspection of finished products
- System testing and quality control testing in production
- Statistics logging and reporting with daily feedback to the team

### Qualifications

- Competent as a PC user, computer savvy
- Linux experience a plus but not required
- Enjoys hands-on work, careful, and detail-oriented
- Excellent organization skill and ability to manage multiple tasks
- Familiar with Microsoft Word and Excel
- Collaborative spirit, committed to team success
- Ability to pass background check
- US Citizenship or US Permanent Resident status required

### Contact Information

Qualified candidates should send their resume to [jobs@silvustechologies.com](mailto:jobs@silvustechologies.com).
